

*One cold Saturday morning in February, 2002, a small group met at a local restaurant determined to establish an art league for purposes of working together and providing mutual support.*

*One by one, others joined the group that was to remain dedicated over the next several weeks, months, and years to the ideal of forming a league of artists.*

*We are a serious but fun group, ready for a great venture. Once a year we organize an art show for professional and non-professional artist.*

*Come with us on the venture. Experience the satisfaction of creating art and exploring new horizons. Join the company of artists...*
